Good News for Men
With 6 to 7 1/2 Feet.

Another lot of men's sample shoes came in this week. The sizes are from 6 1/2 to 7 1/2, and medium widths. If anything, sample shoes are given more care in making than the regular line, because they are used to solicit orders with. Because we bought them under price, we will sell them under price. The $5 shoes go at $4; the $6 at $3.50 and the $3.50 at $2.50.

A Special for Women.

The sale of our "Special" for women has far exceeded our expectations. It's a worthy shoe in every respect and we recommend it for wear because it is made strictly of our own order, from leathers selected by us. It is made in all the popular styles and sells at $2.50. It doesn't compare with regular $2.50 shoes—it's in the three-dollar class.

FORD & MILLER,
BROAD STREET,
RED BANK, N. J.
The agitation against vote buying this year, in some quarters at least, has seemed to be more vigorous than formerly. It is earnest, and its purpose is laudable. Vote buying is corrupt as ever, and iniquity of vote buying is fresh in men's memories. There have been charges of what is known as "shutter which covers the counting matter." This would ensure a perfectly secret ballot. There will also be much less certainty of the vote being delivered than when the ballot would be given to the voter, with the latter's name and address on it. This promises a better form of election. 

There are a few notable candidates. Each vote is recorded on a special card. and the vote given to each candidate is disclosed. There is no delay in this. Each candidate has his own card. There is a tendency to disclose the vote if the voter does not wish it to be known. This is a change. The candidate who is accused of vote buying is not necessarily guilty. There are many innocent persons who have been accused of vote buying, some even out the water and the company wants to get rid of him as such. There will be a still of commissioners who will have the power of the company to examine the votes of the people of the town.

Some of the men who are put forward by the water company as commissioners have been accused of vote buying. The people of this town have been known to occur. Justice cannot be relied upon to give all the assistance in the country, and this is the sum which would be more than sufficient to get in a water plant for Long Branch, whereby the town could supply its own needs. Mr. House would be a great majority by a small vote, and it is said that the people should be equally divided in making a contract. It is said that the people would rather have a contract with the company than continue the water plant.

Most of the stores and owners of the water company do not live at Long Branch and have no interest in the town. They are not likely to expose themselves to the risk of losing everything except that which is sure to be forced from them. If there is a vote to be taken on this matter, it is said that the people would be very glad to have the water plant continued. It is said that there is not a great variety of water companies here, but before or after such a contract is signed, there is a chance for most any kind of business with small capital. A particularly-rotating sawmill in Hants, some seven miles away from Fredericton, have been said to have considerable business with small capital.

DEATHS TO BE INVESTIGATED.

Two Deaths at Branchport Under Circumstances - Inquiries Made.

The death of Pauline Johnson, which occurred at Branchport yesterday, is one of the most unusual cases in the history of our city. Pauline Johnson was a young girl, who had been living at her home in the neighborhood, and her death has caused great excitement among the people of the town. She was last seen by her mother at the home of her sister, Mrs. Mary Butler, who had been away for several days, and upon her return she found the girl dead in her room. The body was immediately removed to the house of Mr. James Johnson, the coroner of the county, and an examination was made by the coroner. The cause of death is not yet known, but it is believed to be a case of suicide. The coroner has ordered an inquest to be held, and the matter has been referred to the prosecutor for investigation.

In Pauline Johnson's case, the matter was reported to her mother at the home of her aunt, Mrs. Mary Johnson, who had been referred to the prosecutor for investigation. Pauline Johnson had been referred to the prosecutor for investigation, but no further information is available.

DEATHS TO BE INVESTIGATED.

Pauline J. Yetter, a young girl, was found dead in her room at Branchport on Tuesday. The cause of death is not known, but it is believed to be a case of suicide. The coroner has ordered an inquest to be held, and the matter has been referred to the prosecutor for investigation.

The coroner, T. S. Yetter, made an examination in both cases and found that the girls had been referred to the prosecutor for investigation.

Other deaths in the family, including the death of a child, have been referred to the prosecutor's office for investigation.

We have an examination made by the coroner. He accordingly summoned Mr. Yetter to the coroner office. After making an examination of the case and consulting with the coroner, Mr. Yetter gave a verbal report without saying anything.

Mrs. Butler's child, who died on Tuesday, was attended by Dr. Yetter. Several times before its death, he was referred to the prosecutor. Mr. Yetter was notified. After making an examination of the case and consulting with the coroner, Mr. Yetter gave a verbal report without saying anything.

On Wednesday, William R. H. Yetter, of Branchport, called at Coroner Yetter's office to investigate the death of a child. He accordingly summoned Mr. Yetter to the coroner office. After making an examination of the case and consulting with the coroner, Mr. Yetter gave a verbal report without saying anything.

The verdict in the suit was for $5,000, but the contract on hands to be settled in any case, is now being made over the affair.

The expressman understood her say to Mrs. Chapman was, “$100 bail to await the action of the court.” He solemnly assured her that a court of justice would hear her cause properly and justly. Mrs. Chapman is put to a great deal of trouble and expense. She is by her say to Mr. Ward, the expressman, not satisfied with the $100 bail.

WHAT THE PAPERS SAY

A Pictureful Personality.

I hear that Mr. Hopkins is to be tried before Judge Grove. Mr. Hopkins has been an active and influential member of the bar for many years, serving as chairman of one or more of the county conventions, as candidate for the legislature and as delegate to the national conventions. He is one of the leading men in the town of Ocean Grove, where he was born and raised. He has had many important legal cases, and will continue to be a strong advocate for the law.

MORRIS CHAIRS.

A Morris Chair is one of the most convenient pieces of furniture a house can have. The chairs are fine with cushions and the back can be placed at any angle, thus giving complete rest. No matter what the occupation may be, whether it's digging ditches or sitting on a high stool poring over a ledger, a Morris Chair can be fixed at an angle that will just hit the tired spot. With one of these chairs one can rest comfortably while reading, without the inconvenience that accompanies reading while lying on a lounge.

Our stock of Morris Chairs has never been equalled in Monmouth county, and the range in price from $3.95 for the least to $15 for a very fine Morris Rocker.

Many families find it nice to have two or three of them, but every family ought to have at least one.

LADIES' DESKS.

We have as fine a line of Ladies' Desks as we have of Morris chairs. It is getting to be the fashion for married women to keep their own household, and expense accounts, and a Ladies' Desk has become one of the necessities of a home as well as one of the ornaments. With a good desk, having a place to keep one's accounts up to date. Most of our sold in the front room, and we have them beautifully decorated in water Colors. The prices range from $6.75 to $18.00.

MUSIC CABINETS.

We have some very beautiful goods in this line. Every family which has a piano, an organ, or which has members who play the violin or other musical instrument, should have a cabinet for one of these cabinets the music is kept together, it is kept in good condition, and any special piece can always be found when wanted. We have Music Cabinets with carvings of various musical instruments on the front, and we have them beautifully decorated in water Colors. The prices range from $6.75 to $11.75.

Afterwards he was just as much at home as ever, and was in no way the worse for his adventure. But he could not forget the fact that he had been placed in a most embarrassing position, and that the whole incident was a most remarkable one.

The principal event of the evening was a dinner given by Mr. and Mrs. Vandyke Brown, at which Mr. Seymour was the chief guest. The dinner was a grand affair, and the company was composed of some of the most distinguished people in London. The guests included the Duke and Duchess of York, the Prince and Princess of Wales, and many other noblemen and ladies.

The conversation was carried on in a most animated manner, and the guests were much amused by the humorous and witty remarks of Mr. Seymour. He spoke with great facility and ease, and his words were received with great interest and attention.

The dinner was succeeded by a ball, at which Mr. Seymour danced with great grace and elegance. He was the center of attraction, and the admiration of all the ladies present. He was a most dashing figure, and his beauty and charm were equalled only by his wit and cleverness.

The evening concluded with a farewell dinner, at which Mr. Seymour was once again the chief guest. The guests included the Duke and Duchess of York, the Prince and Princess of Wales, and many other noblemen and ladies.
